Appendix 9.5

Breeding Bird Survey Results 2007

Species	Legal & Conservation Status *	County Status [#]	Comments
Mute Swan <i>Cygnus olor</i>	Amber List	Common resident and fairly common breeder.	One pair bred on Lake 103 and one pair on Lake 104, with other birds present.
Canada Goose <i>Branta canadensis</i>	-	Fairly common introduced resident and uncommon breeder.	Probable breeder with 2-3 pairs bred on 104.
Greylag Goose <i>Anser anser</i>	Amber List	Fairly common introduced resident and uncommon breeder.	Probable breeder. Three pairs present on Lake 104.
Mallard <i>Anas platyrhynchos</i>	-	Common resident breeder and winter visitor.	Probably breeder. Thirty six adults recorded on Lake 104, many with juveniles.
Tufted Duck <i>Aythya fuligula</i>	-	Fairly common winter visitor and uncommon resident breeder.	Probable breeder. Twenty three birds present on Lake 104.
Great Crested Grebe <i>Podiceps cristatus</i>	-	Uncommon localised breeding resident and winter visitor.	Probable breeder. One pair recorded nesting on the SW side of 104. Other birds present on Lakes 103 and 104.
(Eurasian) Oystercatcher <i>Haematopus ostralegus</i>	Amber List	Increasing passage migrant and winter visitor and scarce breeder.	Probable breeder with one pair nesting on Site.
(Common) Moorhen <i>Gallinula chloropus</i>	-	Common breeding resident.	Probable breeder with one territory in SW of Lake 104, one in NE of Lake 104 and one in Lake 103.
(Common) Coot <i>Fulica atra</i>	-	Common winter visitor and fairly common breeding resident.	Probable breeder with seven territories on Lake 104 and two on Lake 103.
Black-headed Gull <i>Larus ridibundus</i>	Amber List	Common winter visitor and passage migrant. Vary scarce breeder.	Maximum of ten birds recorded. Likely breeder off-site.
Herring Gull <i>Larus argentatus</i>	Amber List	Common winter visitor and uncommon breeding resident.	Maximum of seven birds recorded. Likely breeder off-site.
Stock Dove <i>Columba oenas</i>	Amber List	Fairly common breeding resident.	One male recorded singing along southern boundary. Likely breeder off-site.
(Common) Wood Pigeon <i>Columba palumbus</i>	-	Abundant breeding resident.	Maximum of eight birds recorded. Probable breeder in larger trees along S boundary.
Green Woodpecker <i>Picus viridis</i>	Amber List	Fairly common breeding resident.	Recorded foraging on grassland along W side of Lake 104. May breed in trees along S boundary of site or off-site to the S.
(Barn) Swallow <i>Hirundo rustica</i>	Amber List	Common breeding summer visitor and passage migrant.	Numerous birds recorded foraging over Lake 104. Breeds off-site.

Appendix 9.5
Breeding Bird Survey Results 2007

Species	Legal & Conservation Status *	County Status [#]	Comments
(Winter) Wren <i>Troglodytes troglodytes</i>	-	Abundant breeding resident.	Probable breeder. Six territories in hedgerows round the site.
Hedge Accentor <i>Prunella modularis</i>	Amber List	Abundant breeding resident.	Probable breeder. Four territories in hedgerows around the Site.
(European) Robin <i>Erithacus rubecula</i>	-	Abundant breeding resident.	Probable breeder. Six to seven territories in hedgerows around the site.
(Common) Blackbird <i>Turdus merula</i>	-	Abundant breeding resident and passage migrant.	Probable breeder. Six territories in hedgerows around the site.
Song Thrush <i>Turdus philomelos</i>	Red List	Common breeding resident and passage migrant.	Probable breeder. Two territories in trees in E and N boundaries.
(Common) Whitethroat <i>Sylvia communis</i>	-	Common breeding summer visitor & passage migrant.	Probable breeder. Two territories around Lake 104.
Blackcap <i>Sylvia atricapilla</i>	-	Common breeding summer visitor and passage migrant; uncommon winter visitor.	Probable breeder. Two territories in scrub and trees in between Lakes 103 and 104, and along the S side of Lake 104.
Garden Warbler <i>Sylvia borin</i>	-	Fairly common breeding summer visitor and passage migrant.	Probable breeder. One territory in scrub and trees in on the south side of Lakes 103A and one off-site to the NE of Lake 103.
(Eurasian) Reed Warbler <i>Acrocephalus scirpaceus</i>	-	Fairly common breeding summer visitor and passage migrant.	Probable breeder with one territory on the W of Lake 104 and one on the S of Lake 103a.
(Common) Chiffchaff <i>Phylloscopus collybita</i>	-	Common breeding summer visitor & passage migrant; scarce winter visitor.	Probable breeder. One territory along S Site boundary.
Long-tailed Tit <i>Aegithalos caudatus</i>	-	Common breeding resident.	Maximum of six birds recorded. Possible breeder in shrubs within site.
Blue Tit <i>Parus caeruleus</i>	-	Abundant breeding resident.	Probable breeder. Five territories across site.
Great Tit <i>Parus major</i>	-	Abundant breeding resident.	Probable breeder. Five territories across site.
(Black-billed) Magpie <i>Pica pica</i>	-	Abundant breeding resident.	Maximum of two birds recorded. Possible breeder in trees along S Site boundary.
Carrion Crow <i>Corvus corone</i>	-	Common breeding resident.	Maximum of four birds recorded. Likely to breed off-site.
House Sparrow <i>Passer domesticus</i>	Red List	Common breeding resident.	Probable breeder. Five birds recorded in NE of Site.

Chaffinch <i>Fringilla coelebs</i>	-	Abundant breeding resident and winter visitor.	Probable breeder. Three territories in hedgerows around Site.
(European) Greenfinch <i>Carduelis chloris</i>	-	Common breeding resident and winter visitor.	Probable breeder. Three territories in hedgerows around Site.
(European) Goldfinch <i>Carduelis carduelis</i>	-	Fairly common resident and passage migrant.	Probable breeder. Two territories around lake 104.
Reed Bunting <i>Emberiza schoeniclus</i>	Red List	Fairly common resident breeder.	Probable breeder. Five territories in Site. One pair recorded from the SE of Lake 103, one pair from the S side of Lake 104, three pairs on the E side of Lake 104. One male also recorded just off-site to the NE.

Key:

* Legal protection is that given above the protection all birds have under the Wildlife and Countryside Act (WCA)1981 (as amended).

Schedule 1 - Schedule 1 of the WCA 1981, (as amended).

Red List - Birds of Conservation Concern 2002-2007.

Amber List - Birds of Conservation Concern 2002-2007.

County Status taken from Evans, 2006 and according to the table below:

Status	Level of Abundance	Breeding Numbers
Very Rare	Five or fewer Gloucestershire records.	As per level of abundance.
Rare	Less than annual; many years may pass between records.	As per level of abundance.
Very scarce	Less than annual, but typically recorded every two or three years.	As per level of abundance.
Scarce	Very small numbers recorded virtually every year.	1-9
Uncommon	Recorded in low numbers each year.	10-99
Fairly Common	Reasonable numbers occur in suitable habitat.	100-999
Common	Good numbers occur regularly in suitable habitat.	1000-9999
Abundant	Large numbers occur in all suitable habitat.	10000+
